MANHOOD:

HOW LOST, HOW RESTORED!

IN THE

YOUNG AND MIDDLE AGED GENERATION,

The vegetative powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show their baneful influence. It soon become evident to the observer that some depressing influence is at work in checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. Removed from ordinary diversions of the ever chasing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, the lights are turned inwardly upon themselves.

If the patient be a female the approach of the menses is looked for with anxiety as the first symptom in which nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Instead increase of appetite has grown by what it feeds on. The energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies he grave but waiting for his victim.

HELMBOLD'S

EXTRACT BUCHU

for Weakness Arising from Excesses or Early Indiscretion.

attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Cough, Weakness, Horror of Disease, Weak nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, often Enormous Appetite with Dyspepsia, Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more detrimental to such patients than Solitude, and nothing is more dreadful, for fear of themselves; no remedy of manner, no earnestness, no consolation, but a certain retraction from one question to another.

THESE SYMPTOMS, IF ALLOWED TO GO ON, —WHICH THIS MEDICINE INVARIABLY REMOVES—SOON FOLLOW LOSS OF POWER, FATUITY AND EPILEPTIC FITS, IN ONE OF WHICH THE PATIENT MAY EXPIRE.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum—this same result occurred to two patients. Reason fled for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those dreadful diseases, Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition of human nature is seen. Insanity is actually sodden and quite destitute; neither mirth nor grief ever visits it. Should a sound issue the voice occur it is rarely articulate.

"With woful measures wan despair
Low sullen sounds their grief beguiled."

While we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

Sold by Druggists and Dealers everywhere. Price $1.25 per bottle, or six bottles for $6.50. Delivered to any address. Describe symptoms in all communications.

Cure for Female Weakness.

The Proprietor of this valuable MEDICINE, while suffering from loss of health some years ago, received an Indian Recipe, from which she prepared some for her own use, which resulted in a cure. Many of her friends have since used it with equally gratifying success, and have urged her to introduce it to the public. She has consented, for the relief of suffering humanity, to do so, and feels confident it will prove one of the richest blessings to those who are suffering from Prolapsus Uteri, Inflammation, Ulceration, or General Debility, as it is a certain cure if taken according to directions. This is an Internal Remedy—entirely vegetable—will not injure the most delicate constitution, but is essential to nature, as ingredients are not used under any consideration, nor the application of instruments. It will eradicate all Humors, which in one case, in many cases, of great suffering. Its renovating effects are the most extraordinary, without a change of diet, an handmade will testify. Two bottles will convince the most skeptical of its surprising properties. Its effects are wonderful in the relief and cure of the following complaints, Nervous Debility, Weakness of the Back and Limbs, Dyspepsia, Palpitation of the Heart, Obstruction of Spirits, Irregularities Change of Life, Hemorrhoids or Whites, Dropsical Affections, Gravel Inflammation of the Kidneys, &c.

Prepared and sold by LIDA LINCOLN BLACHER, Randolph, Mass., to whom letters of inquiry should be addressed. Price, ONE DOLLAR per bottle, or Six for Five Dollars, sent by Express, or according to directions, on receipt of the money enclosed in a letter.

For sale by Druggists everywhere, or Sent by Express, Boston; E. F. Bradbury, Bangor, sole Druggists generally. decl1 W2&W4w2m4

Important Notice

TO

Ship Owners.

AMERICAN LLOYDS OFFICE,

Burlin Slip, New York, Jan. 31, 1871.

The Register for 1871 is now ready. The January Supplement will contain the introduction to the history or the "Register." In order to supply the demand for the Exposition, on extra edition will be printed and furnished gratuitously to all parties in possession of a book called the "Record," or a book called the "American Lloyds Universal."

HARTSHORN & KING.

The American Lloyds Register, being the acknowledged standard of American surveys of shipping, approved by underwriters generally, and adopted by the Peruvian Government as a standard for the selection of ships to carry Guano, also by the California Board of Underwriters, and the West India Lloyds at Havana, &c., &c., it is important to owners to have their vessels surveyed and classed in its "Register." Having competent surveyors throughout the State of Maine, I am prepared to order or make surveys personally, if there apply, and to grant certificates under the "Standard Rules" issued by the Board. Also parties can be supplied with copies of the American Lloyds Register, for 1871, by sending their orders to me at the National Insurance Company, Bangor.

SECRETARY'S REPORT.

To the Managers of the Children's Home:

In conformity with the usage of your former Secretaries to make an annual report, I present the following.

Having been absent for more than half the last year, I cannot make a report so full and accurate, as I could otherwise do, but think I may give such an account of the operations of the Home during the year, and of its present state, as to show that you have great cause for congratulation as to its standing and prosperity, and promise for the future. It is greatly encouraging that your efforts are so generally need only to comprehend this, in order to "come over and help" to the full extent of your wishes and needs. It cannot be doubted, if you persevere as you have done, that the time is not far distant, when a much larger number than at present will give you their sympathy, and render such aid as to enable you to enlarge your facilities, and thus gradually bring into the Home a larger, and still larger number of those unfortunate little ones, who are annually cast upon the cold charities of the world.

Though no one can deny that your object is a good one, and that your institution ought to be liberally supported, yet many are careless, and indifferent, and thoughtless as to poverty and suffering, which do not come immediately under their own observation, and need to be approached, again and again, with arguments and entreaties, in order to arouse them to a realizing sense of their duty, and to the privilege they are losing, for never can it more truly be said than in a case like yours, "It is more blessed to give than to receive." To reach this class of persons, it is necessary to be active, and strive to instill into their hearts the same spirit that dwells in your own. You may not at once see the fruits of your labors, but no great or good cause has ever been free from obstacles and opposition, so you should trust in the promise,

"Cast thy bread upon the waters, for thou shalt find it after many days."

No good word or deed will ever die but at some time in the future bring a blessing.

Situated as you are, having the especial charge of this large family of orphans, or of those more helpless than orphans it should be borne in mind for yourselves, and as far as possible impressed upon others that the words of Scripture can have no more appropriate application than in connection with this institution. "Inasmuch as ye did it unto them, ye did it unto me."

There were in the Home at the last annual meeting, thirty-six children, twenty-eight girls, and eight boys. During this year nine girls and ten boys have been admitted. Eight girls and five boys have left. There are now twenty-nine girls and thirteen boys, making an aggregate of forty-two, of which number, thirteen are orphans of soldiers. The report of the Treasurer will give you the amount of receipts and expenditures.

Sewing was commenced in the Home as an experiment and has proved a success. The number attending was about thirty.

On Sundays the children have attended the Hammond Street church in the forenoon. Mr. and Mrs. Merrill with some others usually visited the Home in the afternoon and assisted them in their singing, not only aiding, but highly entertaining them.

The health of the children during the past year has been good, no severe disease prevailing among them. Dr. Morison and Dr. Jordan have visited the Home whenever professionally called upon. Great Staples has been in the habit of "Mr. Abbott of Matinicus, who is much pleased with him, and he will be adopted.

Some of their annual excursion to Fort Point, will long be remembered. Street Sabbath School teachers were invited to a concert given by "Jolly Family," at the Fort Point Church.

At the celebration of the opening of the [illegible] they visited Mrs. G. W. [illegible] and spent the afternoon pleasantly [illegible] with description of "[illegible]" on it. A morning was [illegible] Woodard on that occasion for the smaller children. During the year there have been a large number of visitors from out the city, all of whom seemed highly interested, and some of them gave evidence that their interest did not cease with their visit, as they sent in valuable contributions from their several homes. A number of gentlemen of prominence from a distance, who are well acquainted with similar institutions, spoke in flattering terms of the appearance of the children. I am sorry that comparatively few of our citizens have ever been within the building, and I wish some successful effort could be made to induce many to come and see for themselves, having no doubt if they would do so, they would desire to come again, and again, and bring with them substantial evidence of their appreciation of your success.

Great praise is due to the ladies and gentlemen who assisted in the entertainment for the benefit of the Home in January last.—Being not weary in well doing, the same ladies and gentlemen, with some others propose to make a similar effort the present week, for the same purpose, and it cannot be doubted that the people will generously respond. Mr. A. A. Marks of New York has fitted an artificial leg for one of the girls, which promises to be very useful. Though the ordinary price of such limbs is one hundred dollars, Mr. Marks having made so many for soldiers, and feeling so deep an interest in orphans of soldiers, very generously offered to fit this limb for fifty dollars, which amount was paid from a balance collected for the Hospital, at the Sanitary Fair some years since.

During the year there have been added four life members, Mrs. D. B. Hinckley, Mrs. J. H. Lynde, Mrs. W. H. Wheeler, and Mrs. Chas. D. Bryant.

There have been donations from a large number of individuals. I will only mention here, a washing machine from Messrs. Fairbank & Pritchard; ice for the season, from from the Bangor Ice Co; fish and oysters from Mr. Bickford; hats for the girls from Mr. L. B. Hanson; one barrel of flour from Mr. Chas. Hale; two barrels of vegetables from Mr. W. H. Strickland, and money from the Pine Street, and First Parish societies.—An abundant supply of dinner was sent by some of the managers on Thanksgiving Day.

On Christmas day a tree for the children was prepared by Mrs. Merrill, it being the thirteenth year in succession that she has done the same. There were many beautiful and useful presents for the children and attendants, each having one, and many, more.—Mrs. Hinkley made a Christmas present of twenty-five dollars and Mr. E. D. Jewett of St. John, one of fifty dollars, and others gave smaller sums.

Presents of books and pictures were sent from Boston.

Quite a large number of the friends of the Home were present. Rev. Mr. Knapp made some appropriate remarks. The singing by the children, accompanied by Mrs. Davenport on the piano, was very fine, and it was really a pleasant and agreeable time not only for the children, but for all present.

Mrs. Hinds resigned as Matron the first of October. Of the manner in which she performed her duties, I need not speak here, as I think she gave universal satisfaction to all who were acquainted with her.

Mrs. Elizabeth Patten of Hampden was selected as matron when Mrs. Hinds left; from present appearances there seems no doubt, that she will fill the place acceptably. Some energetic means should be used to secure a larger number of members. Very few ladies, if suitable effort was made, would refuse the small yearly tax of one dollar, and when once enlisted would not be likely to recede, for they would not only take greater interest but feel greater responsibility, for the institution they had helped to support, and no one can be ignorant of the fact that the poor and destitute are always in our midst.

Though your building is capable of accommodating a much larger number of children than are now there, or ever have been, it will be seen from the report of Treasurer that your means will not justify it. In closing I may be permitted to say that as managers, and mainly responsible for the success of the institution, you will perceive the necessity of a continuous and energetic effort by each one to secure such an income as to be able to fill the building to its utmost capacity with children who shall grow up to be good men and women, and who will bless and pray for the institution which made them such. I need not add, if you accomplish this you will have the consolation of having done great good, and that in the future youngmen will be embalmed in many a grateful heart.

MARY L. PATTEN, Secretary.

SCIENCE AT FAULT

When the Wharton trial was first begun at Annapolis, nearly a month ago, the interest felt in it was widespread, but as the case proceeded, and the taking of evidence grew monotonous, the whole affair became wearisome, and comparatively few newspaper readers undertook to wade through the tedious details

But suddenly a new interest is given to the affair The evidence most prejudicial to the defendant was the assertion of Professor Aiken, a leading chemist of Baltimore, that his analysis of the stomach of Mr Ketchum proved the presence of antimony The experiments of the physician, who was well known in his city, and those of his assistant, a certain Dr Toney, were looked upon as decisive until the counsel for the defence called upon Dr McCullough, professor of chemistry in Washington and Lee University, who swore positively that he considered the analysis of Professor Aiken as wholly unworthy, adding that the minute particles which were analyzed were so exceedingly small that it was impossible with certainty to infer anything from them A morning journal also says that Dr Doremus and other eminent chemists of New York place no faith in the analysis made by Dr Aiken

All this must have a great effect on the jury The paths of science are difficult to tread and the unscientific man is very apt to receive with unquestioning faith the dicta of those who claim to have made a special study of the anatomy of the human frame The method of a medical analysis by which the presence of poison in the human system is discovered, is indeed 'caviare to the general' The developments in the Wharton trial, however, will further pluck out the secret of the mystery, and to throw doubt on all such evidence as that given by Dr Aiken

LETTER FROM AUGUSTA

MATTERS AND THINGS AT THE CAPITAL

AUGUSTA, Friday, Jan

To the Editor of the Whig & Courier

The latest member of the Great and General Court has put in an appearance and the seats of the lower branch are filled with legislators intent upon getting the "hang" of things and full of a great willingness to do something that shall redound to their own credit and everlastingly satisfy their constituency Alas for most of them. A few weeks will bring a change over the spirit of their dreams for under the influence of association and the random house lash they will have taken their own measures and found that, if they are not equal to the occasion, still they will prose through the proceedings and will be yearning for home and domestic joys

I said, I will tell you it would be amusing if some Augusta lawmaker would withstand the insinuations of the price of board for the ensuing session has not sensibly diminished Augusta is a pretty little city—in the summer time—and contains many very nice people—in their own estimation—and has a reputation for new lines and enterprise—vide the Sprague purchase, but their citizens who take board for the Legislative session, do it with mind literally to the fullest extent

As an indication of the course of the tide, it will be noticed that the first bill an act, passed and approved in the House for the session, was an act authorizing cities and towns on the line of the Lincoln Railroad, to aid in its construction It was put upon its passage to be engrossed without opposition, but when it comes back from the engrossing it will open the railroad question. If one would read what is to be the business before the Legislature this session, he might imagine the old Grecian answer Railroads, Railroads! Railroads! for they will certainly be encroaching and all absorbing question

The letter from Philips and Hon Chas Holden from Portland, are reported in the August Journal's biographies as having "no religion to speak of," which is certainly an honest expression in these days of shams and pretense as to the religious as well as the secular world David Barker, the member from Exeter, reports his religious sentiments to be — My hope is for a better life somewhere, with a friction hair here! The member from Steuben believes in a "Christianity manifested by works

The remaining State officer to be elected is Treasurer, which will be done as soon as the Treasury report for the year is examined and approved Mr Caldwell will be re elected to the place on which he so ably fills

The House on in the House to-day, referred to in a regular report in regard to ventilating the State House, was sharp, earnest and spicy Some of the speakers were specially hard on the accommodations to be obtained here and the outrageous prices

Both branches adjourned until next Monday noon, at which time there will be an unusual number of members present

Fire caused a good sleighing here A large number of members will leave for home to-day

PROLONGED CHEERING followed the reading of the above A resolution was then adopted appointing a committee to investigate the conduct of the U S Marshal and his deputies in arresting the Governor and representatives of the Sovereign people of Louisiana, pronouncing such action as outrage &c About half past 11 o'clock the extra session of the House adjourned sine die

SPEAKER CARTER having been expelled from the House during the extra session, and his seat as a member declared vacant, could not obtain access to the capitol, instructions having been given the Sergeant-at-Arms not to admit Carter.

THE NOON SESSION

At 12 o'clock Speaker Brewster called the House to order, and a quorum was finally obtained. Governor Warmouth came in a few minutes early and had taken a seat and was conversing with one of the members, when a Staff officer from General Emory in full uniform appeared

THE UNITED STATES TROOPS

He came with a message from the Governor stating that the United States troops would co-operate with the State police in preserving order. Half an hour later General Emory and Staff called on the Governor, the General stating that he had been sent by Gen Emory to co-operate with the troops under his command in preserving order, and informing the Governor that his men were under arms and ready for any emergency

THE MILITARY NOT NEEDED.

The Governor thanked the General, stating that he hoped to be able in a few hours to notify him that troops would not be required, as he had received a communication from Carter which clearly indicated that there would be no disturbance

CARTER'S LETTER

The letter from Carter assigned the Governor and other officials for illegal and revolutionary proceedings in taking forcible possession of the Hall of the House of Representatives by the aid of police and armed men, and notified the Governor and the (Carter) as legal Speaker of the House should with other members assemble at the Hall and proceed to the transaction of business

CARTER EXCLUDED

A resolution was adopted ordering the Sergeant at-Arms not to allow George W. Carter to enter the State-House, and excluding from the privileges of the House all members in anything concerned in preparing the orders of arrest At 1 P. M the House adjourned

—The death at New Orleans of Col. John F. Deane, formerly of the Boys' High School, in this city, is reported, but no particulars are given, except that he was buried on Tuesday

—A huge stack, 80 feet long, and over two feet in diameter at the butt, attracted considerable attention as it was hauled through the streets yesterday by four horses It came from Hermon, and will eventually be a mast in one of Dunning & Son's vessels

—Mr. Wm Strange, jr, was riding yesterday afternoon on the Fuller road, on his way to Hermon with his wife, son, daughter and baby, when his horse shied near the schoolhouse and tipped the whole party out. They were very little injured, however, and after getting things straightened out again, proceeded on their way

—The bark *George Treat*, chartered by Capt. T J Stewart of this city to load at Belfast with orange-box shooks for the Mediterranean, has completed her cargo and sailed. The shooks were manufactured at Hathorn's mill at "Damascus," on the line of the Maine Central railroad, and transferred to Belfast by rail—seventy-four car loads, on which the freight was over $1600

ANNIVERSARIES.—The Sabbath Schools connected with the First Baptist and Free Baptist churches in this city will observe their anniversaries Sunday evening by appropriate exercises in their respective houses of worship. Rev. Wm S McKenzie of St. John, N. B., will deliver an address to the First Baptist school, and Rev S P. Fay to the Free Baptist.

FIRE IN LOWELL. A dwelling house in Lowell owned by James Cables was destroyed by fire on Wednesday morning last, with nearly all the furniture, provisions, &c. Mr. Cables and his wife were absent from home at the time. Mrs. Cables was a very industrious woman, and had on hand among other things, about forty pairs of blankets of her own manufacture. The loss falls heavily, as they are quite advanced in years. Loss, about $1500; no insurance.

—About half past 9 o'clock last evening a horse took fright on Kenduskeag bridge, and getting the advantage of his driver started to run A lady whose name we did not learn, was in the pung to which the horse was attached, and either fell or jumped out opposite Flowers' news depot, and struck on her face on the icy street, was badly bruised and cut, her arm was also sprained She was taken to her residence on Essex st. by a gentleman who chanced to come along with a team The frightened horse disappeared over the top of State st hill, his driver being unable to stop him

—McNell, the one-armed man who was in the lockup drunk on Wednesday night, turned out in the morning, and again put in Thursday, was released once more yesterday morning, and before night made his appearance on the Hampden road, where recklessly running out among the many teams driving there, he swung his hat and shouted until hoarse, trying to get some one to give him a ride Policeman McLaughlin was sent for, and with the assistance of a well-known railroad official "conducted" the man out of danger and into the station-house once more

—A coat was stolen the other day from a resident of Brewer, and finding evidence that seemed to indicate that one Benjamin D Ricker was implicated in the theft, officer Libbey of that town obtained a warrant for his arrest Late yesterday afternoon that officer with City Marshal Bolton started to hunt Ricker up, and after a long and tedious ride, and a mile and a half travel after dark, on a rough logging road through the woods in Holden, they found their man in camp and brought him out to this city.

PAINFUL ACCIDENT. Yesterday afternoon Dea O E Ingalls was riding along Thirdst, in a sleigh with his daughter, when as they were crossing Cedar st, two sleds connected by a plank on which several boys were coasting, came down the hill with great speed, and struck the team, throwing the horse down and overturning the sleigh Both the occupants were thrown out with much violence, the young lady fortunately escaping injury, but Mr Ingalls was badly hurt in the leg and hip and is now confined to his bed, unable to move without suffering the most intense pain The boys on the sleds were all more or less bruised, but were not seriously injured

THE WEEK OF PRAYER. Next week has been designated by the Evangelical Alliance as the annual "Week of Prayer," for which they have sent forth the usual list of subjects The following is the programme for the first two days —

Sunday, Jan 7—SERMONS Subjects The faith once delivered to the saints, a universal and everlasting bond of union in the Christian Church The duties of its defense and extension binding on all believers

Monday, Jan 8—THANKSGIVING God's "unspeakable gift," for mercies, personal and relative, for national mercies, for the maintenance and restoration of peace, and preservation from famine and other national calamities; for mercies in the Christian Church, for the progress of Christ's kingdom, and the usefulness of the Christian ministry

INDEPENDENT ORDER OF ODD FELLOWS The following officers of Penobscot Lodge, No. 7, I O O F., were installed Thursday evening, by D D G. M. F W. Laughton — Chas P. Brown, N G, Otis Gilmore, V G, Henry Boardman, Sec., J W Humphrey, Treas, G W. Mansur, W, Geo S. Hall, C, Otis D Maddocks, O G, Wm C Holt, I G, Jonas P Wyman, R S N. G, J A Robinson, L S N G, Frank Sparks, R S V G, John Larkin, L S. V G, S E Fancy, R S S, F. C. Brown, L S. S.

The officers of Katahdin Encampment, No 4, were installed last evening by G C P, P Batchelder, as follows —H. L. Sands, C. P, James A Robinson, H P., Isaac W Allen, S. W., M T. Cates, J. W; L. C Davis, Scribe, J W Humphrey, Treas., J F. Newinarch, 1st W, A P. Frost, 2d W.; George L Hall, 3d W., H J. Hunt, 4th W.; Scott Dunbar, G, Andrew Wiggin I S., O. D. Maddocks, O S

SAD AND PROBABLY FATAL ACCIDENT.—Last evening about 6 o'clock, as Frank, youngest son of B. N. Thomas, esq, was coasting down "Morse's hill," on Kenduskeag avenue, and was just turning the corner on to Harlow st, he came in collision with a heavy sled drawn by two horses, driven by Wm. McGregor. The lad slid in between the horses' heels and the front part of the sled, and his head struck the end of one of the iron sled runners with great force, cutting a long gash diagonally across his forehead, and fracturing his skull so that the brain oozed from the wound. The horses commenced kicking, when Mr. Calvin Jones, who was close at hand, quickly extricated the injured lad, and aided by a number of bystanders, carried him into Dickey's store and sent for surgical assistance The boy was of course insensible, and the physicians called pronounced his recovery extremely doubtful He was carefully moved to his father's residence on Division street, where at a late hour last night he was still living, though insensible, and it was considered improbable that he would survive until morning

Frank was a bright and intelligent lad, not quite fourteen years of age, and much beloved by all who knew him.

ROGUES ARRESTED Our readers will remember that on the Friday before Christmas a valuable gold chain was stolen from W. F Weeks, and a gold slide from C. C. Williams' jewelry store in this city, by two men who went about pretending that they wanted to purchase. Shortly afterward, detective B D Littlefield of Boston was here as a witness in the Stowe-Ferry case, and to him City Marshal Bolton described the men, believing that they were "professionals" from Massachusetts. Mr. Littlefield thought he knew them both, and after his return to Boston forwarded to the Marshal "intype" pictures from his "Rogues' gallery," of James Keenan and Daniel J. Gorman, which were at once recognized by the jewellers here who lost the articles mentioned above, as portraits of the fellows who did the stealing Marshal Bolton immediately telegraphed the detective to arrest them, but it seems that last week they stole a whole piece of silk from a store in Lowell, Mass., and another in Lawrence, and the officers of the last named city got on track of and arrested them on Wednesday, about fifteen minutes before Littlefield arrived. A letter from Mr L. to the Marshal yesterday, states that if the rogues obtain bail in the Lawrence case they will at once be arrested on the Lowell theft, and if bailed there, they will be nabbed on the theft here, so it seems that they are pretty sure of getting their deserts.

ENTERTAINMENTS IN AID OF THE CHILDREN'S HOME.—One of the largest and best audiences we ever saw in Norombega Hall attended the closing Entertainment of the series given by the ladies of this city in aid of the Children's Home. "Coupon Bonds," Trowbridge's entertaining story, dramatized by Mr. G. B. Bartlett, was the first piece of the evening, and drew sound of applause and peals of laughter at the comical "situations" and amusing dialogue developed in the play. The cast was as follows—"Miss Bostwick," Miss Fanny Fern; "Mr Dunlap," Mr Davenport; "Pa Dunlap," Mr. Geo Bartlett; "Newlyn," Mr. J. R. W. Hatch, the

besides which she is under nominal arrest for murderous assault.

BUSINESS NOTICE

MRS FOOTE is still offering good bargains in Human Hair of her own importing and manufacturing, at Room 18 FRANKLIN House

At a meeting of the Crosby Guards held at their armory Tuesday evening January 2d, the following was unanimously passed and ordered to be entered on the records of the Company

Resolved—That we tender our sincere thanks to the Committee and Ladies for the liberality and taste exhibited by them at the recent Levee for the benefit of our Company on Christmas Eve, and for their lawful and kindly attentions which added so much to the pleasure as well as profit of the occasion

Resolved—That we recognize anew, and gratefully record our obligations, to the ladies of Hampden for their unswerving smile, and their unwearied devotion to all that has contributed to our success as a military organization and to our welfare as individuals

Voted—Said Resolutions be published in the Daily Paper of Bangor and a copy be forwarded to each of the committee

THE special merits of SMOLANDER'S BUCHU are that it thoroughly invigorates an enervated system, and that it is a perfect and truthful *specific* for kidney, bladder and glandular diseases, mental and physical debility, gravel, diabetes, all complaints of the urinogenital organs so frequent in the female sex, whether married or single, and the fact of its being prescribed by family physicians, should be enough to endorse its superiority

A GLORIOUS RECORD—Twelve years ago a few modest lines in a New York Journal and invited public attention to a new Vegetable Restorative, and solicited a trial of its merits as a remedy for indigestion, biliousness, fever and ague, debility, nervous disorders, rheumatism, and all complaints requiring invigorating and regulating treatment In this quiet, unpretentious way, PLANTATION BITTERS was introduced to the world It was a success from the beginning All that was claimed for it as a tonic, a corrective and antidote to malarious fever, was found to be strictly true Within five years the annual sales of the article amounted to over One Million of Bottles A few years more, and the demand was swelled to Five Millions The annual consumption of the bitter has now reached the almost incredible aggregate of Six Millions of Bottles, and for every bottle sold a copy of the Illustrated Medical Annual, published by the proprietors, at a cost of $150,000, is given away and deadens

Not among the least of the invaluable properties of MISS SAWYER'S SALVE are its beneficial effects on the hair Rubbed on the scalp in five or six different parts it promotes the growth of the hair, prevents its turning gray, and, on bald spots, it produces a new growth of hair No lady should be without this invaluable article as an indispensable cosmetic for the toilet It eradicates dandruff and disease from the head, and blotches and pimples from the face ddw

THE MIND governs the muscles through the Nervous System, as the telegraph apparatus is influenced by a remote operator through the wires If the mind is impaired by age or other causes, the sympathetic nerves become debilitated, and through the nerves the muscles of the Stomach, Liver Heart, Lungs or Central Organs become weakened, and disease in the form of Dyspepsia, Disease of the Heart, Weak Lungs, or General Debility follow with their accompanying trains of evil Fellows' Compound Syrup of Hypophosphites restores tone to the mind, the nerves and the muscles It thus sway it overcomes disease.

The Cause and Cure of Consumption

The primary cause, of Consumption is deranagement of the digestive organs The deranagement produces deficient nutrition and assimilation By assimilation I mean that process by which the nutriment of the food is inverted into blood and then into the solids of the body For some wise & profound reason, God ordained that the slightest predisposition to pulmonary disease or of any other disease will in every case lead to a free Consumption of the lungs in some of the forms and I hold that it will be impossible to cure any case of Consumption without first, or at the same time, restoring healthy assimilation The Lungs heaving to do more in a given time than those of any other organ, and always being in a state of inflammation, and consequently in a state of exhaustion, if they cannot perform their functions and then to top and not rather to healthy action, the system must die, the strongest and best remedy is Schenck's Mandrake Pills These pills cleanse the stomach and bowels at the same time and cause a healthy action of the liver and digestive system. They will give us the liver in healthy action, and the food we eat will be digested and turned into healthy blood in secretion

The stomach, bowels and liver are thus cleansed by the use of Schenck's Mandrake Pills but their remove is the stomach in cases of acid dyspepsia, and this action is prior to the bowels the intestines do work and in order to strength and support It is a common fact that Schenck's Seaweed Tonic proves to be the most valuable remedy ever discovered It gives tone and strength to all the digestive organs, and enables the stomach to digest and assimilate food properly, and create a good healthy appetite, and gives the system for the first process of a good digestion and unlimited

I select this from many letters received this year regarding my new and latest improved Lightning Saws of 1871 pattern The house, Messrs Everson, Frisaille & Co., Syracuse, N Y, are known for their high character. They deal largely with farmers and lumbermen
Mr E M BOYNTON, 18 Beekman st, N Y—Sir, The ninth shipment of your Cross Cuts and Wood Saws to us this season arrived last Wednesday Please send us 50 more Lightning Cross Cut Saws soon as possible The sale of your Saws continues good and we are nearly out. We shall require fully 500 Lightning Cross-Cuts and as many Wood Saws to comply to our year's purchases We would like to have you reduce the price if you can still keep up their uniform valued quality of manufacture We should have sold more, only we have been overrun with other varieties of patent clearing teeth saws, and have been obliged to sell your Saws at an advance of 25 per cent over others, yet many will have no other saw but yours Our customers say the Lightning Saw saves the difference of cost in one day's use, are more simple to sharpen and run easier than any other We think your new patent M tooth S we do surpass in speed in ease, in simplicity, and perfect cleanness anything we ever saw, and we are ready to endorse your challenge of $500, to settle by public contest their superiority over any other saw in the world, which, of course, no one can question
EVERSON, FRISSELLE & Co
In accordance with the above, I have reduced the retail price from $1.25 to $1 per foot and the trade price proportionately, and solicit the patronage of the American public Beware of worthless imitations and infringements which will be prosecuted Do not confound this 1871 pattern with my old 1867 pattern Clearing-Tooth Saws, now out of market All clearing teeth are complicated as they require to be kept sharper than gangers and frequent adjustment After much experience, I cannot recommend them Each one of the new Lightning Cross-Cuts has my $500 challenge and full directions for setting and sharpening any saw, engraved on it Honest hardware men will prefer the Lightning Saw to keep their customers, even if they are overstocked with inferior goods, but where they do not keep them, Agents are wanted A six-foot Cross Cut and Buck Saw sent on receipt of $6 Express will cost from 40 cents to $1 to places this side of the Mississippi River by special contract.
N B Millions of Axes are used for cutting wood, a Lightning Cross Cut Saw either for one man or for two, will cut five times as fast as an axe Why is it? Ask any lumberman
Only try saw set and a flat file only required in sharpening the saw, as it leaves the same length and sample as handsaw teeth, producing fresh cut on all, both ways See that the name and trade mark is on each saw

$5000 REWARD!
A Great Discovery!
I will pay the above reward, or any portion thereof, to any person who can produce a better remedy than ADAMSON'S BOTANIC COUGH BALSAM. For the speedy relief of Consumption, Bronchitis, Asthma, Croup, Whooping Cough and all diseases of the Throat, Lungs and Chest it has never yet been equalled, and I have never heard of a case in which it did not give immediate relief and in the vast majority of cases it effected a speedy cure. Hundreds of testimonials can be seen in my possession, from the most reliable sources, of its wonderful healing properties, and I do not hesitate to say that it is the most valuable medicine in the world for the relief and cure of all diseases of the Throat and Lungs. Many of the most eminent clergymen of the country have given me permission to use their names as references, and I can produce testimonials from them, which will be published from time to time, when the space they occupy in this advertisement will not be so valuable as now. Many of the most eminent physicians have given me their testimonials to the effect that they have found no other preparation so efficacious in the treatment of Pulmonary Complaints. Many of them have given it in their own families when all else failed, and have given me their testimonials to that effect. I do not wish to be understood as saying that it will cure all cases of Consumption, but I do say that there is no other preparation that will so generally relieve and so many times effect a cure in the most dangerous diseases to which we are liable. I do not wish to be understood as saying that it will cure Consumption in its last stages
